

## NZ Council "Three-Waters" *cpirlifesaver* "Vital Stats"

All NZ territorial local authorities are facing a challenge to their provision of water-related services.

You are going to need to be ... fully informed!

Councils, if they are to join and participate fully in "The Water" debate, must urgently establish their Council's own credible financial and economic positions ... informing and in support of making their case.

The *cpirlifesaver* application<sup>\*\*\*</sup> (<https://cpirlifesaver.co.nz/cpirlifesaver-application/>) provides this capability.

The *cpirlifesaver* database and applied benchmark measures provide Councils with an unparalleled knowledge base relating to Council wastewater, water supplies and stormwater and of Council supplied services.

All of the essential *Vital Stats* concerned with "Water" of the *cpirlifesaver* application<sup>\*\*\*</sup> ... the tables, graphs and the summarised matrix of findings and information include:

1. **Water-related significant activity** expenditures, revenues, infrastructural assets, debt funding, and niceties to amenities ... and more.
